

Newsletter SCLASS October 2022

Sustainability in shared classrooms

The 2030 Agenda behind the Sustainable Development Goals is a plan of action for people, planet, and prosperity. All countries and all stakeholders, acting in collaborative partnership, will implement this plan. The interlinkages and integrated nature of the Sustainable Development Goals are of crucial importance in ensuring that the purpose of the new Agenda is realized.

Six partners from the Ulixes network have decided to contribute to the SDG agenda by joining forces in a KA2 project called Sustainability in shared classrooms – focusing on problem-based learning in a cross-cultural frame based on the Sustainable Development Goals.

At the end of this month the project will come to an end, and we are proud to have reached our goal: we have created a website on which you find how to teach a Sustainable Development Goal subject together with other educational institutions in Europe.

We kindly invite you to visit the website: <https://sclass.eu/>, where you will find a teacher's guide and a virtual platform with teaching modules, tools to find European partners, input to teaching methods and materials as well as instructions on how to use digital technology for blended learning.

To support you in finding European partners we have put SCLASS on the [European School Education Platform](#).

Finally, we hope you will join us on Facebook: <https://www.facebook.com/groups/sclass.eu>. Because we believe it is time to teach sustainability together.

Malene Olsgaard
International Project Manager at Zealand Business College, Denmark
Lead partner of the SCLASS project
